Course description
This course introduces students to the business and economic world through a selection of newspaper articles and authentic materials that highlight the specialist vocabulary and grammatical structures needed for specific business contexts. Students develop language skills for comprehension and expression which prepare them for interactive communication in real-life situations, such as debates, presentations and simulations.

Methodology
The course contents will be introduced through texts, listening exercises, videos and power point presentations. On the basis of this wide range of material, students will work on grammatical structures, vocabulary and sociocultural content that will help them to develop the ability to interact in real situations. Students are expected to participate actively in the proposed speaking and writing activities.

Assessment
Attendance and participation in class: 20%
Commentary on three of the topics presented in class: 40%
Commentary on three of the topics presented in class: 40%
