**Course description**

The main objective of this course is to give the student an idea of the different creative areas that the city of Barcelona has to offer, a city that has been a pioneer in many areas such as design, publishing, gastronomy or sports. Creativity is the ability to generate something new, combining data, perceptions and materials, and the city of Barcelona, which has managed to reinvent itself on so many occasions, is a constant example of this. With this in mind, the different environments in which the city has stood out over the years will be studied.

**Methodology**

Each session will consist of a Power Point presentation of the topic and different readings and visits that the students will have to study and prepare. Then, contents will be put in common to be clarified with the help of the teacher. Active participation of the students is expected.

**Assessment system**

Examination: 40%
Course work: 40%
Class attendance: 20%
